	Examiner Cris L. Rodriguez	Art Unit 3732	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5, 8, 9, 21, 29, 23-28, 30-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - Claims 1, 23, and 30: there is no antecedent basis for "the preferential bending plane".

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 8, 9 21, and 23-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Pike et al (US 5,695,506).

Pike discloses a catheter articulation segment including all the elements set forth in the claims. See figures 5-6.

5. Claims 1-5, 21, 23-26, 29-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Ross et al (US 6,258,111).

Ross discloses a catheter/hypotube 124 having all the elements as claimed. See Figure 7, col. 6.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 8, 9, 27, 28, and 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ross et al in view of Pike et al.

Ross discloses the invention substantially as claimed except for each slit having a width in the claimed range, and the hypotube made of stainless steel.

Pike teaches a catheter having slits within the claimed range and made out of stainless steel. Given the teachings, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Ross's catheter by making his catheter with Pike's slits width and material since such modifications are taught old and well known by Ross.

Response to Arguments

8. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

9. With respect to arguments Pike discloses all the elements as claimed. The amended language does not differentiate applicant's invention from Pike.
